YW (adj)	1,491/100	Mature Sc.	46
		Mature Fr.	6.5

Cowboy Up *x is moderate framed, strong topped, and heavy muscled. Moving straight and free, he is big footed with superb testicular dimension. In Denver, exhibitors from the yards came up the hill and expressed interest in Cowboy Up *x as a bull for the future. Definitely a bull who can meet the cattleman's needs, Cowboy Up *x will be an asset to your program whether it is in the feedlot, the show ring, or future females for your herd.

Ultrasound Data: Age at scanning 18 months: REA 18.8; RibFat .39; Rump Fat .38; IMF: 3.42.
